We have been writing the first few chapters of a better story since the Spring of 2009. Our mission: to inspire, equip, and empower local churches, businesses, and organizations to successfully adopt schools in their community for the purpose of fighting childhood hunger and helping meet other needs of children.

Today, *one out of every four kids in our community is unsure of where their next meal might come from. To us, that is simply unacceptable.* So, we are focusing our efforts on feeding hungry kids over the weekends through the Bite2Go program. It has been an unexpected and profound blessing, being a meaningful participant in the fight against the effects of poverty on children. And we feel compelled not to keep this kind of blessing to ourselves. Now, we write the next chapters of this story of hope together with you. We invite you to partner with us, and make a difference for the betterment of our community by feeding hungry kids over the weekends. Our mission is to help make this story yours too.
